Re: New(FX), Jackson, MS
Facility ID No. 202754
New South Radio, Inc.
BNPFT-20180418AEQ

Dear Applicant:

The staff has under consideration the above-captioned application for a new FM translator.

An engineering study has revealed that the proposed facility specified in the application fails to meet the interference protection requirements of 47 C.F.R. § 74.1204. Specifically, the 100 dBu interfering contour of the proposed facility would overlap the 60 dBu contour of the second-adjacent channel facility for W273CY, Jackson, MS (BLFT-20170602AAG). The application fails to recognize this issue. Therefore, the application is unacceptable for filing and will be dismissed.

Accordingly, in light of the above, application BNPFT-20180418AEQ is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283

Sincerely,

James D. Bradshaw
Senior Deputy Chief
